MEMORANDUM FOR: Director, Office of Assessment and Evaluation

FROM: Leslie C. Dirks  
Deputy Director for Science and Technology

SUBJECT: Space Policy

REFERENCE:

25X1

1. Thanks much for the reference with attachment. My interest was primarily in bringing myself up-to-date on where the whole process stood. As I am sure you are well aware, the NRO is much engaged and the concerned IC Staff Committees, especially COMIREX, seem to be tracking reasonably closely.

2. If I have any particular thoughts I will pass them along directly. Since such are unlikely I would appreciate if you could keep me up-to-date by way of forwarding draft documents as the process unfolds.

3. I have been a little bit concerned about Jay Keyworth's public utterances on declassifying imagery acquired from satellite platforms. I assume those comments are off the top of his head and are not based on serious deliberations either on his staff or elsewhere.
